Ako kućica nije ravna, upotrijebite podloške s obje strane kućice ili vrata.

OPCIONALNO

Sidrenje kućice na temelj

Usidrite kućicu na temelj tako što ćete izbušiti rupe u podnici kućice na unaprijed označenim mjestima i pričvrstite je na temelj pomoću odgovarajućih vijaka (vijci nisu uključeni u opseg isporuke).

ODRŽAVANJE I SIGURNOSNE NAPOMENE

- Kućica je namijenjena isključivo za pohranu predmeta. Kućica nije prikladna za stanovanje.
- Preporučujemo da kućicu pričvrstite na nepomični objekt ili usidrite u tlo kroz rupe (na unaprijed označenim mjestima) na podnici kućice pomoću odgovarajućih vijaka (vijci nisu uključeni u opseg isporuke).
- Kućicu ne postavljajte po vjetrovitom ili hladnom vremenu.
- Redovito provjeravajte je li kućica stabilna i je li mjesto postavljanja ravno.
- Budite oprezni kada rukujete s dijelovima koji imaju čelične rubove.
- Za postavljanje i održavanje kućice koristite samo alate koji su navedeni u uputama za postavljanje.
- Izbjegavajte košnju kosilicom i trimerom u direktnom okruženju kućice.
- Nosite zaštitne naočale i prilikom uporabe električnih uređaja uvijek se pridržavajte uputa proizvođača.
- Kućicu čistite s vrtnim crijevom ili blagim sredstvom za čišćenje. Ne koristite tvrdu četku ili abrazivna sredstva za čišćenje, uključujući odmašćivače i sredstva za čišćenje na bazi ulja ili acetona jer ta sredstva stvaraju mrlje i mogu oštetiti kućicu.
- Ne pohranjujte vruće predmete u kućici kao što su nedavno uporabljani roštilj ili plamenik za lemljenje i hlapljive kemikalije.
- Ne naslanjajte teške predmete na zidove kućice jer cijela kućica može izgubiti oblik.
- Uklonite snijeg s krova i nakupljeno lišće. Velike količine snijega mogu oštetiti kućicu te stvoriti opasnost prilikom ulaska.
- Smjer vjetra također je važan čimbenik kojeg morate uzeti u obzir prilikom postavljanja kućice. Izbjegavajte izloženost vjetru, pogotovo na strani vrata. Vrata uvijek moraju biti zatvorena i zaključana kada ne koristite kućicu kako biste izbjegli oštećenja uzrokovana vjetrom.
- Ne penjite se na krov kućice ni u kojem slučaju.
- Obratite se mjesnoj upravi je li potrebna dozvola za postavljanje kućice.

10 GODINA OGRANIČENOG JAMSTVA

Vaša Keter kućica (proizvod) izrađena je pod točnom kontrolom i strogim nadzorom od visokokvalitetnog materijala, koji se može reciklirati.

Ukoliko se pojave problemi s proizvodom, reklamaciju pošaljite Keter službi za korisnike na našoj webstranici (www.keter.com) ili nam se obratite telefonskim putem.

U ograničeno jamstvo od 10 godina uključeni su nedostaci nastali prilikom proizvodnje ili nedostaci materijala. Jamstvo vrijedi od datuma kupnje. (Izraz "nedostaci" definira se kao oštećenje koje ograničava uporabu proizvoda).

Ovo jamstvo ne obuhvaća nedostatke, koji su nastali kao rezultat normalne uporabe i tragove trošenja, ogrebotine ili pukotine, koje su nastale uporabom proizvoda, kao i promjene u boji, pojavu hrđe, štetu, koja je nastala neprikladnom uporabom, pogrešnom uporabom, nepažnjom, izmjenama, bojanjem, pomicanjem ili premještanjem proizvoda i "rezultate prirodnih nepogoda", u što se ubraja tuča, svaki oblik oluje, poplave i požari te posljedična ili slučajna šteta.

Prilikom postavljanja i rukovanja, koje nije u skladu s uputama, uvjetima i ograničenjima navedenim u ovom uputama, izgubit ćete pravo na jamstvo. To također vrijedi i za uporabu u komercijalne i javne svrhe. Tvrtka Keter nije odgovorna za bilo kakvu štetu uzrokovanu trećom stranom te za štetu i gubitak predmeta unutar ili u blizini kućice. Nakon podnošenja dokaza o kupnji i dokaznog materijala o nedostaku proizvoda te uz pravovremenu obavijest o nedostatku, Keter će za vrijeme trajanja jamstva nakon vlastite procjene zamijeniti manjkave dijelove ili će vratiti proporcionalni iznos cijene na osnovi amortizirane osnovice za vrijeme trajanja jamstva.

AKO NEKI DIJELOVI NEDOSTAJU ILI SU OŠTEĆENI, MOLIMO NE VRAĆAJTE PROIZVOD U TRGOVINU. Molimo, prijavite se na našu webstranicu ili kontaktirajte našu službu za korisnike na:
