

# HOPPER INTRO

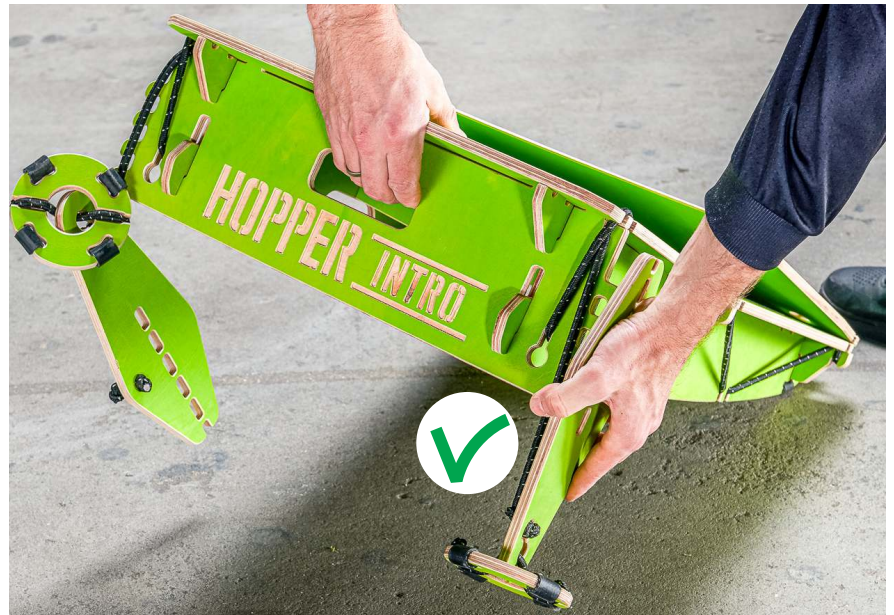

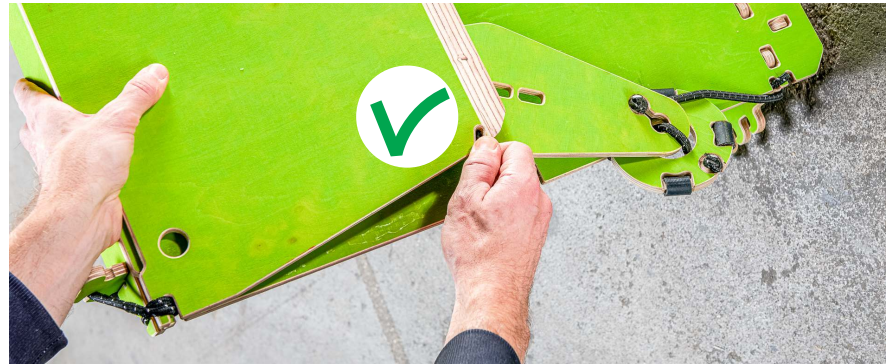

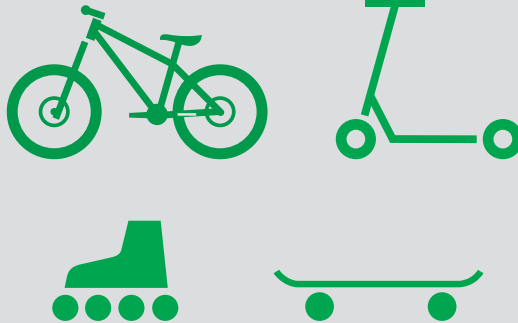

## USER MANUAL

### Always

**wear your helmet.**

It is recommended to wear knee pads, gloves and other safety equipment.

**Please in any usage case do not disassemble** ramp and take out bungee cords out of construction. Only factory assembled ramp can evenly distribute loads and withstand normal usage.

Before the jump, ensure that **ramp** is **standing firmly** on the surface. If the surface is uneven, **adjust** the legs.

Please send us your first jump photo or video and we will share it on our Facebook!
