This lawn scarifier/aerator gives your medium-sized lawn that fresh green colour again. It is equipped with 10 knives and 36 steel needles. The knives remove moss and dead grass from the lawn, while the fine needles loosen the soil so it can breathe and absorb water and nutrients.

The cutting width is fixed at 320mm. A 40 liter collection bag gathers the grass and the moss, so you can work very neatly.

The cutting depth can be set at 4 different positions. All depends on whether you want to lightly vent or deeply scarify the ground.

The lawn scarifier is very safe to use and has a safety lock. So there isn't any risk the machine will start unintentionally.

It is possible to fit the extension cord to the cable relief. In that way you can never unplug the power cable by accident.
