With its premium quality chain and guide bar plus automatic chain oiler, you have a durable tool at hand which you'll enjoy for quite a long time. The POWXG1009 obtains a power of no less than 2400W and has a 400mm long bar.

You will be able to prune your trees quickly and powerfully. At ease, because the chainsaw is equipped with a low kickback, a quick stop and a safety guard. And without losing time, as adjusting the tension on the chain is done without any tools.

The POWXG1009 is easy manoeuvrable: the electric motor, engine, drive and bar are all in the same straight line.
