Provjerite kod
nadležnih tijela
je li postavljanje
dopušteno

Savjetujemo vam da pažljivo, korak po korak slijedite ovaj priručnik za uporabu za ispravnu montažu proizvoda.

Provjerite imate li sve dijelove potrebne za montažu i uklonite zaštitnu plastiku prije no što počnete sa sastavljanjem.

Nemojte sastavljati kućicu/ormarić u blizini djece i/ili kućnih ljubimaca.

Planirajte postavljanje proizvoda na suh dan bez vjetera. Izbjegavajte montažu u dane s lošim vremenom kako biste izbjegli oštećenje proizvoda ili osobne ozljede. Kućica nije namijenjena za travnjak kao izravnu podlogu.

Preporučuje se montaža na čvrstoj, ravnoj drvenoj podlozi, ravnoj betonskoj podlozi ili podlozi od cementiranih opeka ili ploča. Vrlo je važno pričvrstiti kućicu za pod. Nisu uključeni vijci ni drugi dijelovi potrebni za pričvršćivanje.

Ako se radi betonska platforma, važno je da ona ima nagib prema rubovima kako bi se izbjegao prodor vode.

Proizvod treba smjestiti na mjestu zaštićenom od vjetera i s dobrom drenažom. Nastojte ga ne postavljati u neposrednoj blizini drveća, jer će biti potrebno redovito čišćenje grana i lišća koji bi mogli padati na njega.

Preporučujemo uklanjati snijeg s metalne kućice nakon svakog sniježenja, inače njegova težina može oštetiti krov kućice.

Nikada nemojte centrirati težinu tijela na krovu.

Za pravilno održavanje preporučuje se kućicu brisati mekom krpom te redovito čistiti vodilicu vrata kako bi pravilno klizila.

Kućice su namijenjene isključivo za čuvanje predmeta, stanovanje i druge namjene su zabranjene.

ČISTOĆA I ODRŽAVANJE

Za pravilno održavanje preporučuje se da proizvod održavate čistim, možete ga čistiti mekom vlažnom krpom.

Na proizvodu nikad nemojte koristiti abrazivne otopine ili deterdžente.

Važno je da krovni odvodni kućice uvijek budu čisti kako se na krovu ne bi skupljala prljavština.
