- PRIMER BULB**
BRANDSTOFFPOMP // POIRE D'AMORÇAGE // VORPUMPBALL // BULBO CEBADOR

POWEG9020

LEAF BLOWER 26cc

This backpack leaf blower from Powerplus offers the necessary carrying comfort during garden maintenance. This is because the 26 cc two-stroke engine is carried on the back during use and ensures optimal distribution of weight. The economical engine also has a low petrol consumption, without sacrificing power. The engine is suitable for both E5 and E10 petrol.

Thanks to peak speeds of 280 km/h and an air volume of 8 m³/min, it also handles stuck or wet leaves without any problem. Moreover, the leaf blower is suitable for blowing smaller branches, cut grass and other light garden waste. The vibration reduction system ensures that even the toughest jobs are pleasant to deal with.

The three-piece tube is easy to dismantle. This allows compact storage of the leaf blower. The control handle with safety switch is located on the tube and ensures the necessary ease of use. With the help of the throttle on the control handle, the blowing speed can be controlled easily and intuitively. The carrying straps are made with extra padding for the necessary carrying comfort during longer jobs.
