POWXG20080

HEDGE TRIMMER 600W

The laser cut double action blade of this Powerplus hedge trimmer trims branches up to 20mm in diameter. Its two handed operation and rotatable handle with soft grip make your trimming job comfortable and ergonomic. You turn the device the way you want and not the other way around. Your branches will be pruned smoothly and in the perfect angle.

Moreover you will get a second handle with safety switch and 600W power. With a maximum cutting length of 550mm, you make a lot of progress while trimming hedges. Its mechanical brake system stops the double action blade quickly in time of need. For additional security, the POWXG20080 is also equipped with a safety blade cover, so you don't damage the knives when accidentally hitting the wall or ground. After trimming, you can safely store away the tool with the solid blade cover.
