Lights made of glass - a timeless trend and a highlight for a stylish home! Glass lights don't just provide optimal lighting, they can also be used as decorative accessories. The VITA pendant light is the ideal choice for illuminating living spaces and, with its combination of metal and glass, also complements the modern style of living. Whether it's used in the living area or in the kitchen above the dining table, the light provides the right lighting atmosphere everywhere. The simple matt black colour design allows easy integration into existing colour concepts. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and protect the environment.
