## STEP 15

- GB**
- The product must be stable on a fixed, level surface, preferably on concrete or stone slabs. If there is no suitable base, you need to create a foundation. Anchor the construction tightly to the ground.
  - Ensure storm-proof anchoring to the ground and always lock the doors! Do not set up in windy conditions!
  - Snow Clearance: Regularly clear snow during winter months.

- DE**
- Das Produkt muss auf einem festen, ebenen Untergrund stehen, vorzugsweise auf einer Beton- oder Steinplatte. Ist kein geeigneter Untergrund vorhanden, müssen Sie ein Fundament erstellen. Verankern Sie die Konstruktion fest im Boden.
  - Sorgen Sie für eine sturmsichere Bodenverankerung und schließen Sie die Türen immer ab! Nicht bei Wind aufstellen!
  - Schneeräumung: Regelmäßige Schneeräumung in den Wintermonaten.
