POWEG63773

LAWNMOWER 132cc

This 4 stroke Powerplus lawnmower has a much longer lifespan than a 2-stroke equivalent and is more environmentally friendly, because no oil gets mixed with petrol. You have a cutting width of 41cm at your disposal and it can mow lawns up to 600m². You have complete freedom while gardening thanks to the 132cc petrol motor and you mow with powerful large ball bearing wheels.

You are able to choose between 3 different functions – collecting grass in the 45l collection bag, mulching or rear discharging – and 7 different heights, depending on the grass length.

Changing between the collection bag and mulching kit works very smoothly. Just like the mowing itself, as the POWEG63773 is self-propelled. Finished mowing? Fold the handle and save space in the shed.
