## INDICAZIONI GENERALI

### Gentile Cliente,

la ringraziamo per aver scelto la nostra casetta in legno.

**E' importante leggere accuratamente le istruzioni prima di dare inizio alle operazioni di montaggio del prodotto**, in tal modo eviterà qualsiasi problema e perdita di tempo.

### Consigli:

- Conservare il kit in luogo asciutto e non appoggiato direttamente sul pavimento, mantenendolo protetto da agenti atmosferici (acqua, sole ecc.) fino al montaggio definitivo. Non conservare il prodotto in ambienti riscaldati.
- Nella scelta del luogo in cui sarà posizionata la casetta, prestare attenzione a che non sia esposta a condizioni atmosferiche estreme (zone esposte a vento forte).

### Garanzia:

La vostra casetta è stata realizzata con pregiato legno di abete rosso nordico e viene consegnata non trattata. Qualora, nonostante il nostro accurato controllo in fabbrica, dovessero sorgere reclami sarà necessario presentare al negoziante il certificato di controllo compilato insieme alla fattura d'acquisto.

### Esclusioni:

- Il legno è una materia prima naturale e pertanto le contestazioni relative al suo naturale comportamento non rientrano nella garanzia.
- Reclami relativi al materiale non vengono accettati una volta verniciato.
- Nodi nel legno.
- Scolorimenti del legno che non influiscono sulla durata.
- Crepe / fessure non passanti che non compromettono la costruzione.
- Deformazioni del legno, a condizione che possa ancora essere lavorato.
- Sui lati non visibili del tavolame del tetto e del pavimento sono ammesse parti non piallate; sono inoltre ammesse differenze di colore e di smusso.
- Reclami successivi dovuti a montaggio non conforme o cedimento della struttura della casetta a causa di fondamenta errate sono esclusi.

**Le rivendicazioni di garanzia sono limitate alla sostituzione del materiale difettoso, ogni altra rivendicazione è esclusa.**

## VERNICIATURA, MANUTENZIONE E SMALTIMENTO

Il legno è un prodotto naturale e si muove in modo variabile. Caratteristiche quali venature grosse e sottili, sfumature e cambiamenti di colore nonché nodi sono dovuti alla crescita dell'albero. Sono del tutto normali nei legni che crescono all'aperto, e pertanto non sono da considerare difetti ma piuttosto una caratteristica del legno naturale.

Per la verniciatura, usare attrezzi e vernici di qualità e rispettare le istruzioni di sicurezza e applicazione del produttore della vernice. Non verniciare in pieno sole o in caso di pioggia. Farsi consigliare dettagliatamente dal venditore sulla protezione di legni di conifera trattati. Con una regolare verniciatura aumenterete notevolmente la durata della vostra casetta in legno. Consigliamo un'ispezione semestrale del prodotto.

Lubrificare con regolare frequenza le parti mobili quali serratura, cerniere e catenacci facendo attenzione a non imbrattare le parti circostanti.

A fine vita del prodotto provvedere a consegnare la **casetta** direttamente all'ECOCENTRO nel cassonetto del **LEGNO**. Oppure, nei comuni dove è previsto, mediante il ritiro rifiuti ingombranti.

L'azienda Alce s.r.l. si riserva la possibilità di apportare in qualsiasi momento e senza preavviso modifiche ai propri prodotti atte e migliorarne la qualità.

## GÉNÉRALITÉS

### **Cher client,**

Nous sommes heureux que votre choix se soit porté sur notre maisonnette!

**Il est important de lire entièrement cette notice de montage avant de commencer la construction de votre maisonnette!** Vous vous éviterez ainsi des problèmes et des pertes de temps inutiles.

### **Conseils:**

- Avant son montage définitif, entreposez le kit de construction au sec et pas directement sur la terre, en le protégeant contre les intempéries (humidité, rayonnement du soleil, etc.). Ne pas conserver la merchandise dans un local chauffé!
- Au moment de choisir l'endroit de montage, veillez à ce que la maisonnette ne soit pas exposée à des conditions atmosphériques extrêmes (zones exposées à des vents forts).

### **Garantie**

Votre maisonnette est réalisée en bois d'épicéa nordique de haute qualité et elle vous est livrée non traitée. Si elle devait donner lieu à des réclamations, malgré les soins apportés à notre contrôle en usine, nous vous demandons de remettre à votre revendeur spécialisé le bon de contrôle rempli et votre facture d'achat!

Ecarts qui ne constituent pas un motif de réclamation:

- Le bois est un produit naturel, ce qui fait que les réclamations reposant sur des phénomènes naturels ne tombent pas sous le coup de la garantie.
- Les réclamations concernant les matériaux ne sont pas acceptées si une peinture a déjà été appliquée!
- Noeuds qui sont inhérents au bois.
- Décolorations du bois qui n'exercent pas d'influences sur la durée de vie.
- Fissures / fentes de retrait qui ne sont pas traversantes et qui n'exercent pas d'influences sur la construction.
- Déformations du bois, sous réserve qu'il puisse encore être mis en oeuvre.
- Sur les faces non visibles des planches du toit et du plancher, il se peut que les planches ne soient pas rabotées, on peut observer des différences de couleur et des flaches.
- Une réclamation tardive résultant d'un montage incorrectement réalisé, d'un affaissement du maisonnette par suite de fondations et de soubassements incorrectement réalisés, est exclue.

**Les recours en garantie se limitent au remplacement du matériel défectueux. Tous les autres recours sont exclus!**

## **PEINTURE, ENTRETIEN ET ÉLIMINATION**

Le bois est un produit naturel qui travaille de façon variable. Des caractéristiques telles que les madrures grossières et fines, les nuances de couleurs et les modifications, de même que les imbrications, ont leur origine dans la croissance du bois. Dans le cas de bois qui poussent en pleine nature, ces caractéristiques sont normales et ne doivent par conséquent pas être considérées comme des défauts mais, au contraire, comme une particularité de ce matériau naturel qu'est le bois.

Pour la peinture, n'utilisez qu'un outillage et une peinture de haute qualité, et respectez les consignes de sécurité et de mise en oeuvre du fabricant de peintures. Ne peignez jamais en plein soleil ou lorsque le temps est à la pluie. Faites-vous conseiller de façon détaillée par votre revendeur spécialisé quant à la protection à utiliser pour les conifères traités. En refaisant régulièrement la peinture, vous augmentez sensiblement la durée de vie de votre maisonnette. Nous vous conseillons également une inspection semestrielle de votre maisonnette.

Lubrifier les pièces mobiles telles que les serrures, charnières et chaînes avec une fréquence régulière, en veillant à ne pas enduire les parties environnantes.

À la fin de la vie du produit, procéder à la livraison du chalet directement à l'île écologique, dans la benne en bois. Ou, dans les municipalités où il est prévu, par la collecte des déchets encombrants.

L'entreprise Alce s.r.l. se réserve la possibilité d'apporter à tout moment et sans préavis des modifications à ses produits et d'en améliorer la qualité.

## PAINTING, MAINTENANCE AND DISPOSAL

Wood is a natural product and moves in a variable way. Features such as large and subtle veins, nuances and color changes, and knots, are due to the growth of the tree. They are normal in the woods that grow outdoors and, therefore, should not be considered defects but rather natural wood characteristics.

For painting, please use quality tools and paints and respect the safety instructions and tips application of the paint manufacturer. Do not paint in direct sunlight or in case of rain and be advised in detail by the seller about treated softwoods protection. Having been properly painted substantially increase the duration of your Garden Shed. We recommend bi-annual inspection of the product.

Lubrify moving parts such as locks, hinges and chains with regular frequency, making sure not to smear the surrounding parts.

At the end of the life of the product, proceed to deliver the cottage directly to the ecological island, in the wooden dumpster. Or, in the municipalities where it is planned, through the collection of bulky waste.
