POWX354

PAINT SPRAY GUN 500W

This HVLP paint spray gun delivers air at a much higher volume, but with a much lower pressure. This drastically reduces overspray and blowback. All the sprayed paint or varnish ends up neatly on your furniture, doors, walls, garden fences,... instead of wasted in the air.

To ensure the best result for any surface the spray gun is easily adjustable in 3 spray patterns (vertically, horizontally and round). You can even regulate the paint flow for a clean and even result.

Maintenance is easy. The filter can be changed quickly and an internal air check valve prevents liquid from flowing back into the motor.

TECHNICAL SPECIFICATIONS POWX354		Features	Box content	Symbols
Rated Voltage - Frequency	220-240V~ 50/60Hz	• High Volume Low Pressure • Adjustable paint flow control • Internal air check valve • Quick disassembly • Quick change Air filter • Easy cleaning	1x paint spray gun	CHEMICAL SAFETY www.varo.com ID 1419062192
