

Safety information

EN

WARNING!

It is extremely important that you exercise caution and self-awareness when on the water. Never overestimate your strength and boat-handling skills! Always stay close to the shore! Pay attention to the weather conditions, storm warnings and any light signals or flares!

WARNING!

Please observe the safety rules and applicable statutory regulations for lakes and open waters and, for your own safety, always wear a tested buoyancy vest.

WARNING!

If you are a beginner, take a windsurfing course prior to using the product.

WARNING!

Wear a life jacket when you are on the water with the product.

RISK OF INJURY!

- Pay attention to people who may be standing in the product's general area when transporting the product.
- When using the sail, look out for people in the water.
- Wear a wetsuit when paddling in cooler temperatures. There is a risk of hypothermia!
- Familiarise yourself with the body of water before surfing.
- Keep a safe distance from rapids, flotsam and other obstacles.
- BEWARE OF OFFSHORE WINDS AND CURRENTS!** You can be driven off course.
Do not use in breaking waves.
- Never use the product in offshore wind conditions (wind that is blowing from the land towards the water) or in offshore currents (currents moving away from the shore). You can be driven off course!
- Pay attention to the instructions on the rating label.
- Always comply with the local maritime navigation rules.
- Do not go surfing when the tide is turning or when waves are high.
- Do not take any sharp or pointed objects with you.
- The product should be protected from contact with potentially unsafe liquids or acids. These could cause irreparable damage.
- Protect the product from heat and fire! Be careful with lit cigarettes!
- To avoid damage to the product, ensure that it does not come into contact with stony ground.
- Never leave the product unattended on the water. It will be carried away too fast for a swimmer to be able to reach it.
- Do not make any technical modifications to the product. Modifications of any kind will impair the operability of the product and the warranty will no longer be valid.
- Never use the product under the influence of alcohol, drugs or medication.
- Never overestimate your strength; always pace yourself when surfing so that you can easily retrace the distance you have covered.
