

The OPTICAB 240.G welding bay provides an effective barrier against welding rays, arcs and projections.. It isolates the welder and protects other people from welding related risks.

- Complies with European standard EN 1598-2011.
- Filters both the visible and invisible light emitted by the welding arc.
- 100% PVC matter, extinguishable and highly resistant (0.40 mm thick).
- Does not require tools or assembly.
- Surface: 5,76 m² (10 m³).
