

ARMBAR – CORK

MULTI-TOOL

Even the most resourceful can use some help opening up a wine bottle – meet the Armbar Cork. It's a smart design that fits in pocket like a folding knife and operates like a fully capable multi-tool. The Armbar features tools to handle the tasks that a pocket knife simply can't handle: a corkscrew, foil cutter, pry bar, bottle opener, and can/package opener. It also handles anything your pocket knife could with a one-hand opening fine edge blade and scissors.
