

# ARMBAR - DRIVE

## MULTI-TOOL

Get your multi-tool out of the truck and into your pocket: the Armbar is a smart design that fits in pocket like a folding knife and operates like a fully capable multi-tool. The Armbar features tools to handle the tasks that a pocket knife simply can't handle: an awl, pry bar, bottle opener, and a 2.5" long driver with a double-sided bit. It also handles anything your pocket knife could with a one-hand opening fine edge blade and scissors.

### UPGRADE YOUR POCKET
