## Product Fiche

### The basic information

**Model:** TAC-I2CHPB/KB

**Manufacturer / Address:** Ananda GmbH, Daimlerstr. 6, 76185 Karlsruhe, Germany

**Sound power level:** 65dB

**Refrigerant:** R290

Refrigerant leakage contributes to climate change. Refrigerant with lower global warming potential (GWP) would contribute less to global warming than a refrigerant with higher GWP, if leaked to the atmosphere. This appliance contains a refrigerant fluid with a GWP equal to 3. This means that if 1 kg of this refrigerant fluid would be leaked to the atmosphere, the impact on global warming would be 3 times higher than 1 kg of CO<sub>2</sub>, over a period of 100 years. Never try to interfere with the refrigerant circuit yourself or disassemble the product yourself and always ask a professional.

### Cooling mode

**EER rated:** 2.6

**Energy efficiency class:** A

**P rated:** 3200W

Energy consumption 1.2 kWh per 60 minutes, based on standard test results. Actual energy consumption will depend on how the appliance is used and where it is located.

### Heating mode

**COP rated:** 2.8

**Energy efficiency class:** A+

**P rated:** 2900W

Energy consumption 1 kWh per 60 minutes, based on standard test results. Actual energy consumption will depend on how the appliance is used and where it is located.
